

CHATHAM COUNTY PURCHASING DEPARTMENT

ADDENDUM NO. 1 FOR BID NO. 13-0117-3

VIDEO ARRAIGNMENT EQUIPMENT FOR CHATHAM COUNTY SHERIFF'S DEPARTMENT

Please note that the Due Date for the Bid has not changed. Bids are due 10:00 am on November 27, 2013

The following items were discussed and clarified at the Pre-bid Meeting for the Video Arraignment Equipment for the Chatham County Sheriff's Department held at the CCDC Facility at 1050 Carl Griffin Dr., Savannah, GA on 11/20/13:

1. Local Preference clause 1.12 included in the Bid Documents does apply to this project and it is not considered "Public Works Construction";
2. Background checks for Security badges will not be required. Day badges and security escorts will provided as needed;
3. Bidder must be licensed to do low voltage business in the State of Georgia;
4. Wire to be used in the ceiling areas is to be Cat. 6, plenum rated, white for cameras blue for data;
5. CCDC facility utilizes a 10 gig Ethernet fiber connection;
6. CCDC IT to confirm equipment and current software at the four, off site, point to point locations as indicated to allow for verification of equipment compatibility;
7. It was clarified that power and data connections are available for use in Courtrooms A and B room at the locations indicated on the drawings;
8. Power and data locations at Courtrooms C and D are only available on one wall as indicated on the drawings;
9. Courtrooms C and D to have secure enclosure provided that completely protects all equipment including HD cameras, monitor and microphone but still allows for proper visual and audible transmission. System to be operated by handheld, wireless. programmable remote control;
10. Bidders will be required to core drill properly sized holes in the 8" precast, hollow core planks at Courtrooms C and D in order to install the required Pelco cameras (model #?) at the back corner location as indicated. See attached structural drawings for general information but shop drawings of these planks will be provided as needed prior to drilling in order to avoid post tension cables;
11. Head in equipment to be located at the IDF room C140 and vendor is to include all required connection to supplied equipment. CCDC IT to provide space in mounting rack with UPS power supply and appropriate outgoing Ethernet connection(s);
12. Full sheet PDF drawings provided upon request.
13. Please see website for PDF drawings E121C, ET111C, S115C and S404.
