RFQ 17-0008-1

1. OVERVIEW OF THE OPPORTUNITY AND THE PROCUREMENT PROCESS

1.1 Overview of the Opportunity and the Procurement Process

Chatham County, Georgia (the “County”) is issuing this Request for Qualifications (“RFQ”) to solicit proposals from interested parties to partner with the County to develop a new County Courthouse Complex in downtown Savannah, Georgia (the “Project”). The Project will include the development of a new Trial Courts Building, renovation of the existing County Courthouse, and may also include parking and retail components in an effort to enhance the overall development opportunity. The Project is further described in further detail in Section 2.4.

Using a two-step Request for Qualifications (“RFQ”)/Proposals (“RFP”) Process, the County is soliciting qualifications from teams capable of working with the County to deliver the new and renovated Courthouse Complex in where the team will design, build, finance, operate, and maintain the Project (“D/B/F/O/M Teams”).

RFQ responses are due at the **Office of the Purchasing Director, Suite C, "Citizens Service Center" @ 1117 Eisenhower Drive, Savannah, Georgia, 31406 no later than Monday, March 13, 2017 at 5:00 PM.**

The County is soliciting proposals for a Public Private Partnership (“P3”), where a partner would be responsible to Design/Build/Finance/Operate/Maintain (“D/B/F/O/M”) the new Trial Courts Building in a way that is consistent with the County’s objectives and maximizes the value and utility of the development, while also coordinating and executing the other elements of the Project.

Through this solicitation process, the County will determine if there is a feasible approach to engaging a private partner to assist in developing the Courthouse Complex. The private partner must demonstrate the appropriate experience, financial capacity, and proven track record of successfully executing projects similar in size and scope.

Two or more entities may collaborate in submitting a response to this RFQ, but a single entity must be designated to contract with the County and be responsible for performance under any future contract. Additionally, any single entity may be a representative on multiple responses, but may only lead one.

Instructions for preparation and submission of a response to this RFQ are outlined in Sections 3 and 4 in this RFQ.

1.2 2015 RFQ Process

In 2015, the County issued RFQ #15-0001-1, which sought proposals to Design/Build/Finance/Maintain a new Trial Courts Building project. The County received a robust number of responses to the 2015 RFQ and has since decided to expand the project scope, clarify the County's objectives, provide a new timeline, and restart the RFQ process. The County has also retained The PFM Group ("PFM") as its transaction advisor to assist in the procurement effort and in the evaluation of financing alternatives that best meet the County's objectives.

For those parties who submitted responses to the 2015 RFQ, we ask the responses be updated and resubmitted in their entirety to meet the requirements of this RFQ.

2. PURPOSE OF THE RFQ & OVERVIEW OF THE PROJECT & COUNTY

2.1 Chatham County, Georgia

Chatham County, with almost 287,000 residents, is the fifth largest county in the State of Georgia and serves as the primary economic hub of the region. The County is bordered on the north by the Savannah River and South Carolina, on the east by the Atlantic Ocean, and on the south and west by counties within its Metropolitan Statistical Area – Bryan, Effingham, Liberty, Long and Bulloch. The City of Savannah is the County seat. The Savannah Primary Trade Area, a designation that forms linkages in population and shopping trends, includes 740,000 people and also encompasses Beaufort and Jasper counties in South Carolina. The County is home to the Port of Savannah, the fourth largest port in the United States and a key factor in the area and State’s economic vitality.

Chatham County operates under a county-manager form of government. Policy making and legislative authority are vested in the governing Board of Commissioners consisting of a Chairman and eight Commissioners. The Board is elected for a four year term with the current term expiring on December 31, 2020. The County’s financial condition is demonstrated by the Aa2 rating of its bonds by Moody’s Investor Services and a AA rating from Standard and Poor’s Corporation, last reaffirmed in September 2013.

2.2 Chatham County’s Goals and Objectives

The County Courthouse Complex presents interested parties a significant opportunity to team with the County in a public private partnership to bring to fruition an important project that has been in the planning stages for a number of years. The County believes that a private partner with expertise and experience can add value in the financing, delivery, and ongoing management and operations of the new Courthouse Complex. The County’s specific goals and objectives include:

1. Design and redevelop the County Courthouse Complex into a vibrant addition to historic downtown Savannah consistent with its distinct architecture and style.
2. Replace the existing County Courthouse with a new, modern facility to meet user needs and adaptively reuse the existing courthouse.
3. Secure financing that minimizes the impact to the County’s balance sheet and credit, while also providing for long-term maintenance and lifecycle costs, with a buy-out option for the County to purchase the facility during the term of the agreement.
4. Reduce long-term maintenance costs, provide for cost-effective facility management and operations, and increase energy efficiency.
5. Design the Project to achieve LEED Silver or better.
6. Maintain ongoing operations at the current Courthouse and minimize impacts to the public, businesses and adjacent property owners during construction of the Project.
7. Provide efficient parking for the Courthouse Complex employees and the public.

8. Ensure the County has beneficial occupancy of the Project by 36 months after award or as otherwise agreed upon by the County.
9. Execute the Project in a manner that provides opportunities for participation by local contractors.

2.3 Purpose

The County encourages participation in the RFQ process and is open to creative approaches of interested parties to design, build, finance, operate and maintain the Project on the County's behalf. The County is open to any number of financing approaches including taxable and tax-exempt financing. The County will evaluate the capability and experience of each RFQ respondent and select a Short List of RFQ Respondents ("Short Listed Parties") in accordance with the Evaluation Criteria set out in Section 4.7 of this RFQ. Short Listed Parties will be invited to participate in subsequent stage(s) of a competitive procurement process, which will include a Step 2 RFP.

2.4 Project Description and P3 Agreement

2.4.1 Project Description

As indicated above, the County has expanded the scope of the Project to include the following components:

- **New Trial Courts Building** - Development of a new, approximately 165,000 sf Trial Courts Building to serve as the future home of the County's State and Superior Court judicial offices and courtrooms.

Over the past several years, the design team of PSA Dewberry and Barnard & Associated has been advising the County and the County's Judges on space needs and layout of the new Courthouse. The County believes that the concept design completed by the Dewberry team, while not intended to be prescriptive to interested parties, is an important effort that is the result of much consultation and input by the Judges and other users of the future Courthouse Complex. It is the County's expectation that the concept plans will be the take off point for a refined design effort that will continue and build on this collaborative effort with the Project stakeholders. A presentation on the Project's schematic design review has been provided as an attachment to this RFQ.

- **Existing County Courthouse** - Renovation of the existing County Courthouse includes a complete renovation of the existing building and replacement of its aging building systems. The renovation will commence once the new facility is available to current occupants. The existing County Courthouse is approximately 141,000 sf.

- **Parking** - Parking in and around the current Courthouse is constrained and does not fully meet the needs of the Courthouse employees. With the addition of the new Trial Courts Building it is anticipated that this situation will become exacerbated. The County will consider project approaches that improve parking for both the Courthouse Complex employees and the public.
- **Retail** - The area in and around the new Courthouse is experiencing significant new development and the County is open to retail development as part of the project so long as it can be consistent with the Project's overall objectives..

2.4.2 P3 Agreement

The County anticipates entering into a comprehensive P3 agreement, of no longer than 50 years, with the successful proposer that will set forth the obligations of the parties through the life-cycle of the Project including completion of design documents, construction, occupancy and maintenance of the facility. The County may consider forms of agreement suggested by the successful proposer; however, the County anticipates that the P3 agreement will address the following responsibilities of the private partner:

- **Design** - The successful proposer will be responsible for all design associated with the new Trial Courts Building, and any renovation of the existing Courthouse, parking facilities, and proposed retail in a manner consistent with all regulations and County and City codes.
- **Financing** - The successful proposer will identify and provide any equity and debt necessary for the project. The County will consider proposals that utilize taxable or tax-exempt debt so long as they meet the County's objectives outlined above, including the ability for the County to take-out the financing during the term of the agreement
- **Construction** - Will include all elements of the project including the new Trial Courts Building, renovation to the current Courthouse, any improvements to the existing parking, and proposed retail.
- **Permits and approvals** - The successful proposer will be responsible for obtaining all zoning approvals, environmental permits, and any other permits or approvals required for the project
- **Facility management** – The successful proposer will be responsible with day-to-day facility management services (routine interior and exterior maintenance, custodial services, landscaping, etc.)
- **Lifecycle maintenance** - The successful proposer will responsible for all repairs, capital expenses, and lifecycle maintenance to keep the facility operating in a

manner consistent with the performance standards that will be approved by the County.

2.4.3 Design and Construction Budget

The County will approve a budget for the Project which includes all demolition, testing, inspections, design, construction, site development, professional fees, furniture and equipment.

2.4.4 Project Schedule

The County will approve the project schedule and anticipates having beneficial occupancy of the Project 36 months after award.

2.5 Current County Courthouse

The County currently operates out of the J. Tom Coleman Judicial Courthouse. As a part of this RFQ, the County is seeking to combine the renovation of the existing facility along with the development of a new Trial Courts Building. Currently the existing facility is slated to be renovated and the County has identified a need for a new facility. The County is in the middle of Phase 1 of its Courthouse Complex plan, partially renovating the existing Courthouse.

The current renovations include 1) additional Courtrooms, Chambers and Administrative space; 2) safety and security improvements; and 3) preparations for Phase 2 and 3 of the Master Plan. Phase 2 and 3 are the new Trial Courts Building and additional renovation of the J. Tom Coleman Judicial Courthouse, as described in the Project. Phase 3 will gut and renovate the entire existing courthouse building and replace its aging building systems in a phased construction, renovating as much of two floors at a time as possible.

The following is a timeline of key development events at the existing J. Tom Coleman Judicial Courthouse in Chatham County.

- 1978 – Chatham County Courthouse completed
- 1995 – Master plan & needs assessment performed.
 - a. National Center for State Courts (“NCSC”) determined anticipated caseload projections through 2015 resulting in future court facility needs.
