Reply: There are no core drills. All fence posts are mounted with brackets as shown on the plan.

**3. Clarification to Plans:**

In order to install the fence posts along the side barrier walls and leave the bleacher brackets in place, each existing bleacher must be cut at approximately 5" to 8" from the concrete wall and require the installation of a new cap on the end of the bleacher. The centerline of the new fence post will be approximately 4 ½" from the concrete wall not 1"-0" as shown on the plan.
