**PLEASE SEE THE FOLLOWING FOR ADDITIONS, CLARIFICATIONS AND/OR CHANGES:**

Responses to questions received:

1. Q) It was stated in the Pre-Bid in lieu of Class B concrete that 25mm would be considered for base replacement in patching areas. On the revised bid sheet (addendum 1) there has not been a 25mm item added but instead a Class B item. Please consider changing this to 25mm base.

A) *Areas to be patched that are smaller in width or length than 6 ft. shall be patched with 440lb/sy of 19mm SP asphalt. NOTE: The Class B line item has been removed from the attached revised bid sheets (2 sheets)*

2.Q) If deep patching is going to require the use of Class B as the base material, then can an explanation be given as to why 100sy of Class B is on the bid sheet compared to the 50 sy of deep patching.

A) *See response to #1.*

**REPLACE CURRENT BID SHEETS WITH THE ATTACHED REVISED BID SHEETS (2 sheets)**
