### **5.3 DETAILED SPECIFICATIONS**

#### **5.3.1 Tree Removal**

A Representative of Public Works shall determine the removal of trees. However, the Contractor can recommend removal by contacting the Representative. All trees designated for removal will be felled according to established industry standards. When the situation warrants, ropes and other rigging devices will be used for safety precaution and to eliminate potential damages. Any damage caused by the Contractor that could have been avoided, including but not limited to broken sidewalk, curb, rutted lawn, broken water lines, valves or hydrants, buildings or streets will be repaired or replaced within a timeframe determined and to the satisfaction of the County. The Contractor will pay all associated costs.

Trees can be designated for removal or dropped in place. For those that must be removed all tree debris must be removed prior to the Contractor leaving the site. The Contractor is responsible for disposal of the debris, County sites are not available. If the work site becomes unsafe due to weather or limited light conditions then work can stop if the representative concurs. However, the Contractor must take proper safeguards to protect the public as well as his equipment and personnel. Work must resume once the situation improves. If the tree is to be just dropped then it is up to the Representative to determine what debris to be removed. The Contractor cannot leave a stump of a tree higher than three (3) inches above the ground level.

#### **5.3.2 Safety**

Traffic control will be in accordance with the Manual of Uniform Traffic Control Devices. If the contractor does not comply with established standards, a stop work order will be issued and work will not restart until the standard has been obtained. The cost for signage and devices will be at the contractors' expense. If streets need to be closed, the contractor will notify the Public Works Department Representative, Police Department, Fire and Emergency Services Departments. The contractor will have utilities marked if it appears removal of the tree limbs may damage such systems. The contractor will also immediately notify utility companies and the Public Works Representative if systems are damaged during the work effort. At all times personal safety of the contractor's employees must be in accordance to tree care industry safety standards. If the contractor is found at fault for personnel, safety violations the County will not assume any liability.

#### **5.3.3 Notification**

Selection of a contractor will be done on a rotation basis with consideration on responsiveness. The selected contractor will meet the Project Manager at the job site, negotiate the final scope of

service, and cost prior to any work commencing.

Once the final scope of service and scope of service has been established, the contractor has five (5) days in which to start work unless both parties agree upon a new date.

If it becomes necessary for the contractor to assist the County with emergency tree removal services, the contractor has six (6) hours to start work after notification. Therefore, the contractor must provide telephone numbers in order to be reached on a 24 hour basis. Cost of the work will be at the rate for emergency services. The County will pay a minimum of \$200.00 for a call out.
